

**CLASS 1 PERMIT MODIFICATION NOTICE
HAZARDOUS WASTE MANAGEMENT FACILITIES
LIVERMORE SITE
EPA ID NO. CA2890012584
LAWRENCE LIVERMORE NATIONAL LABORATORY (LLNL)**

On March 14, 2003, Lawrence Livermore National Laboratory (LLNL) notified the Department of Toxic Substances Control (DTSC) of its intent to modify the Hazardous Waste Facility Permit. These modifications pertain to the Training Plan, and include course material consolidations, course additions, course title changes, increases in course frequencies and durations, and job duty description changes.

Pursuant to 22 CCR § 66270.42 and 22 CCR § 66270.42 Appendix I, the Hazardous Waste Permit and Operation Plan Modifications meet the definition of a Class 1 Permit Modification. Class 1 Permit Modifications apply to minor changes that keep the permit current with routine changes to the facility or its operation. These changes do not substantially alter the permit conditions or reduce the capacity of the facility to protect human health or the environment.

Questions regarding the Class 1 Permit Modifications may be addressed to the following DTSC or LLNL representatives:
